

Engine 119(118): all-family multivariate probe-aware Pandrosion

flow/119 on ks(3,4): dense, sparse, structured, real, phase, mixed-degree, and ill-scaled systems

119 multifamily probe-aware harness

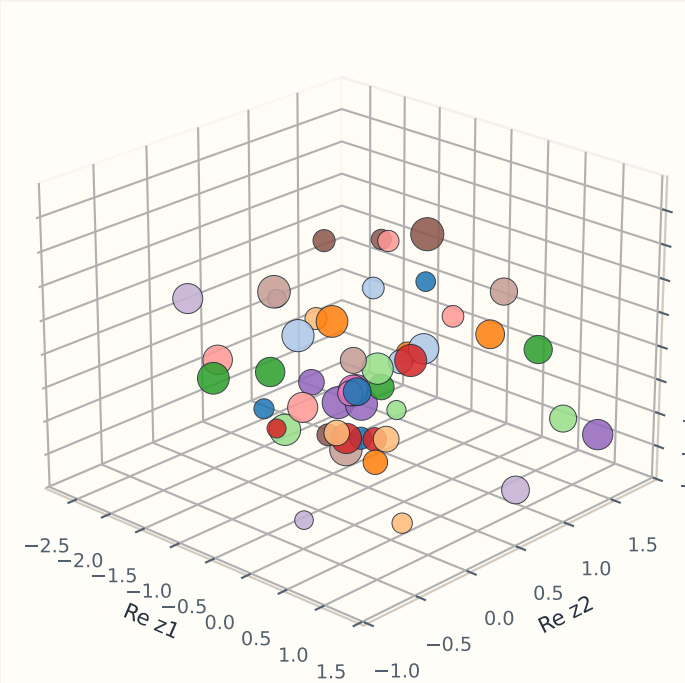

Same 118 corrector; only the polynomial family changes

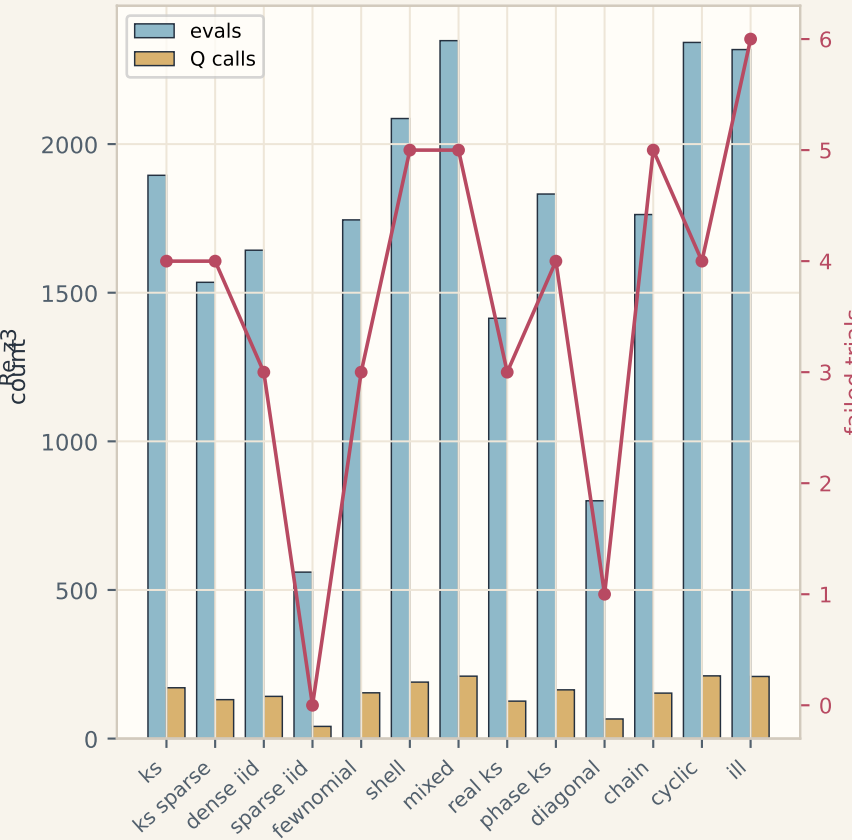

119 coverage on ks(3,4)

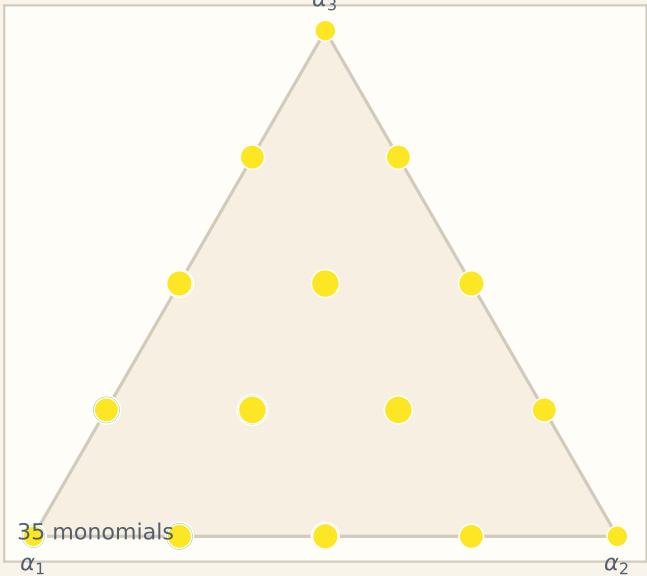

3D root cloud: real projection

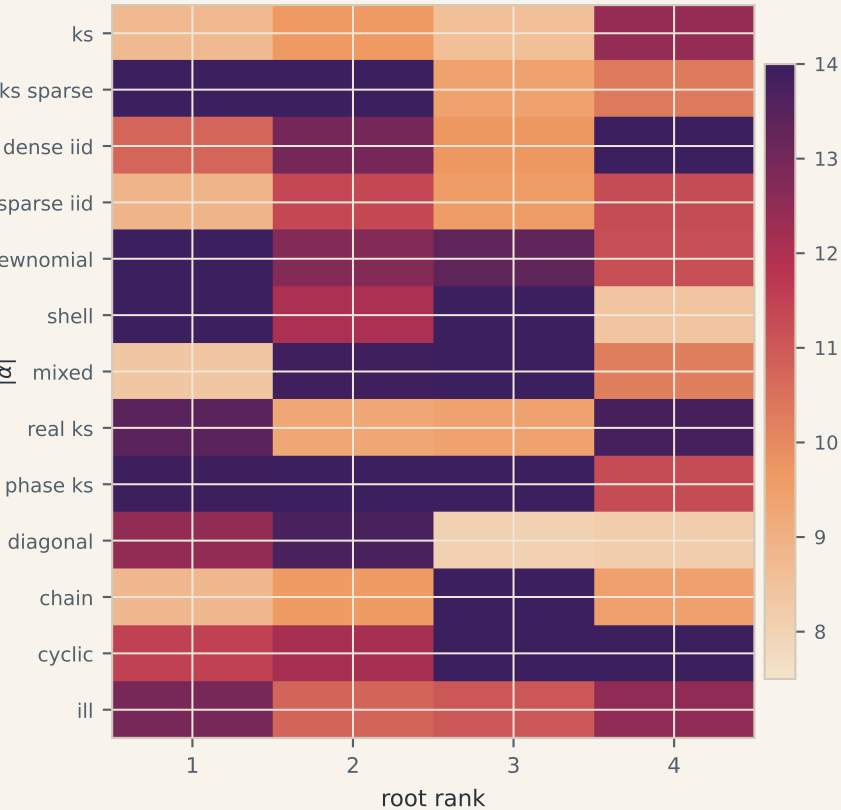

Evaluation and slope budget

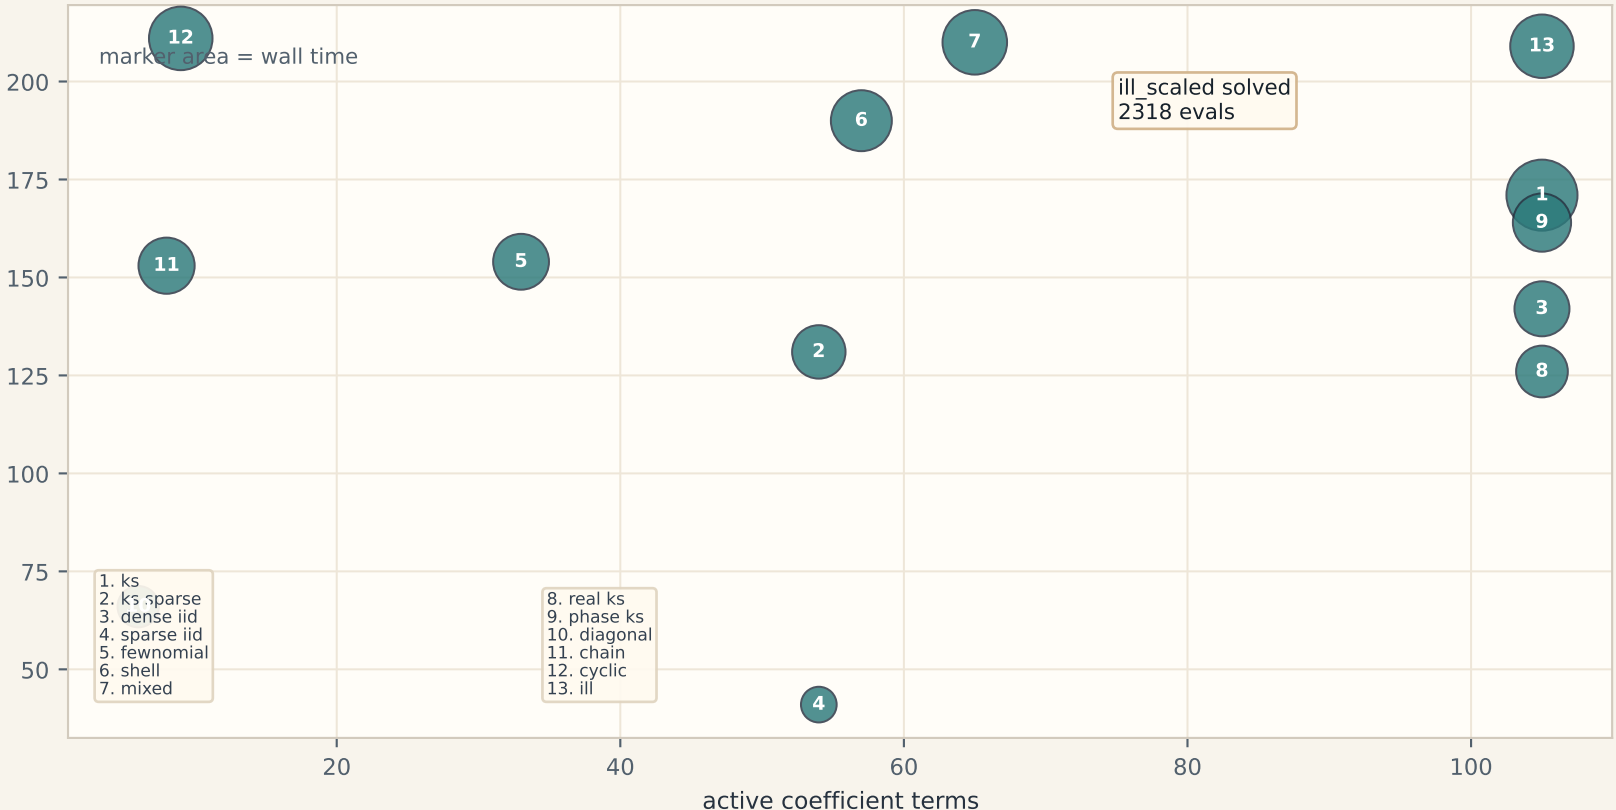

3-variable exponent simplex

Residual quality by family

Support size vs probe-aware workload

ks(3,4), families=all successes 13/13 roots 52/52 stress failure: none ill_scaled 4/4, 0.044s flow: 118 probe-aware exact telescopic slope reused by 119
