

Engine 115: vectorized pure Pandrosion

Exact telescopic slopes, BLAS-level assembly, and geometric Thales starts

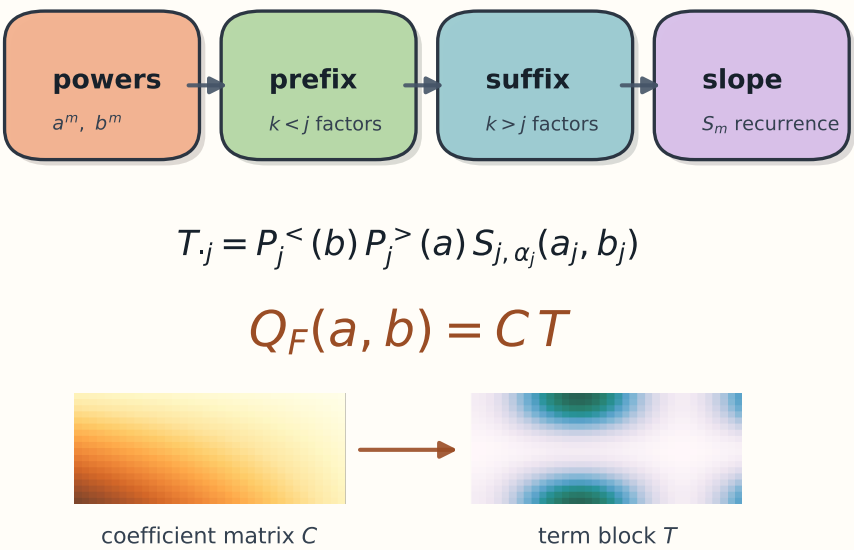

115 single geometric flow

A direct route from deterministic starts to certified residuals

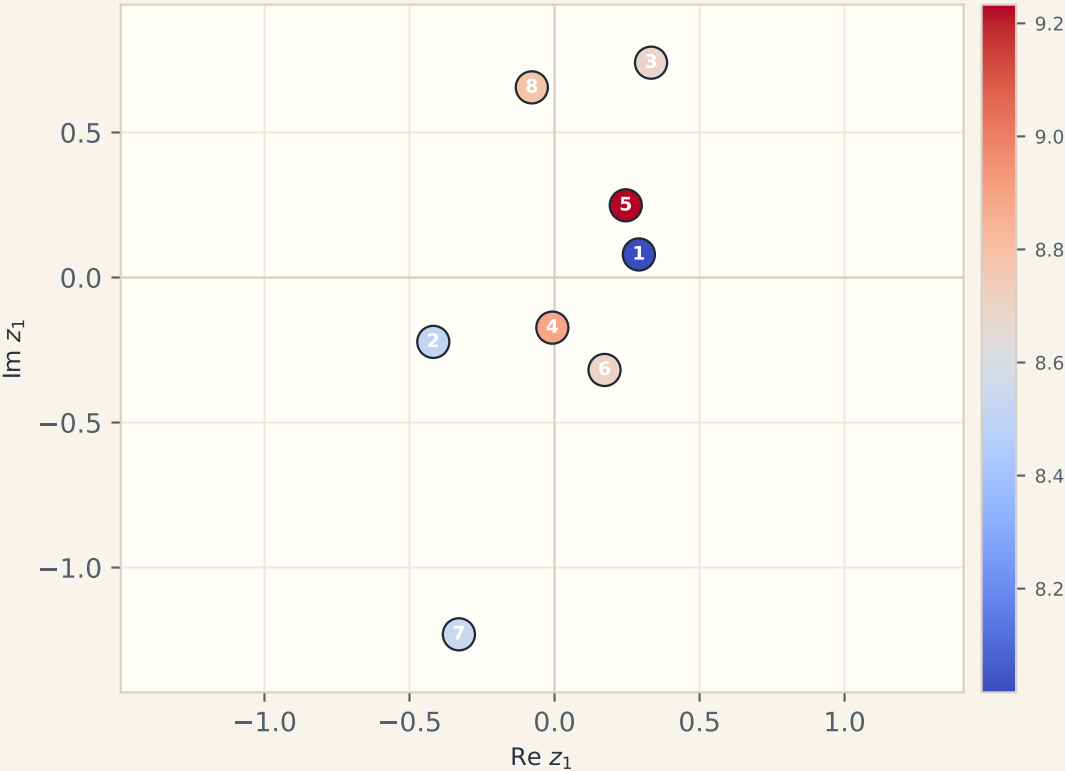

Vectorized exact slope

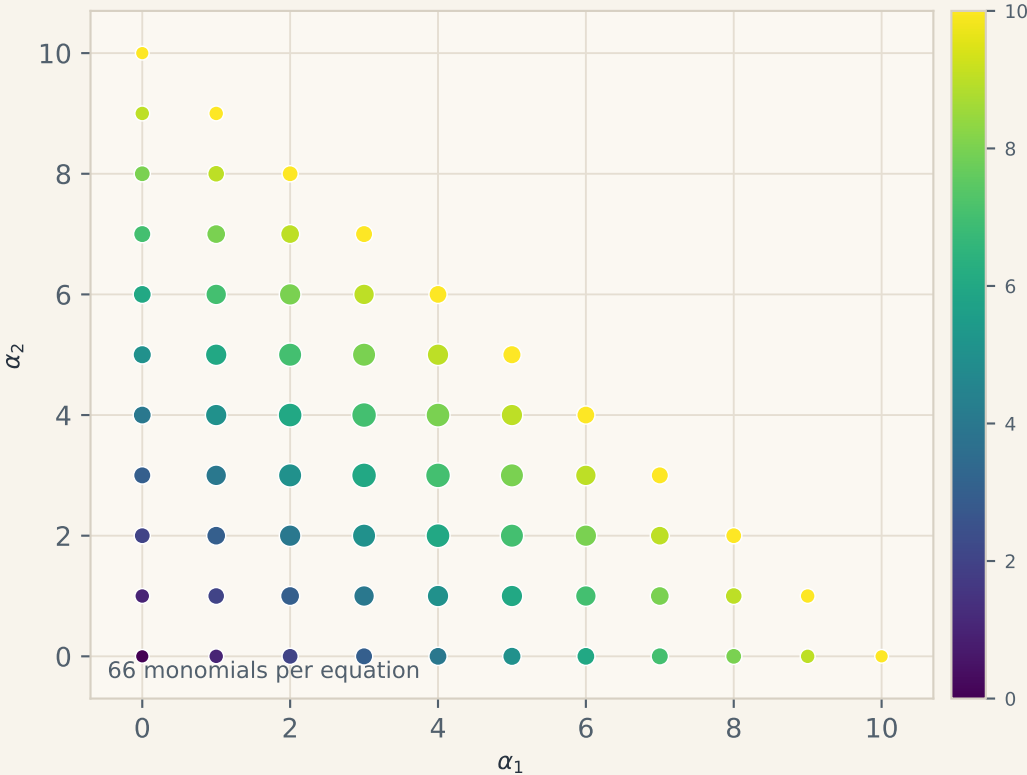

No Jacobian in the local corrector: $F(b) - F(a) = Q(a, b)(b - a)$

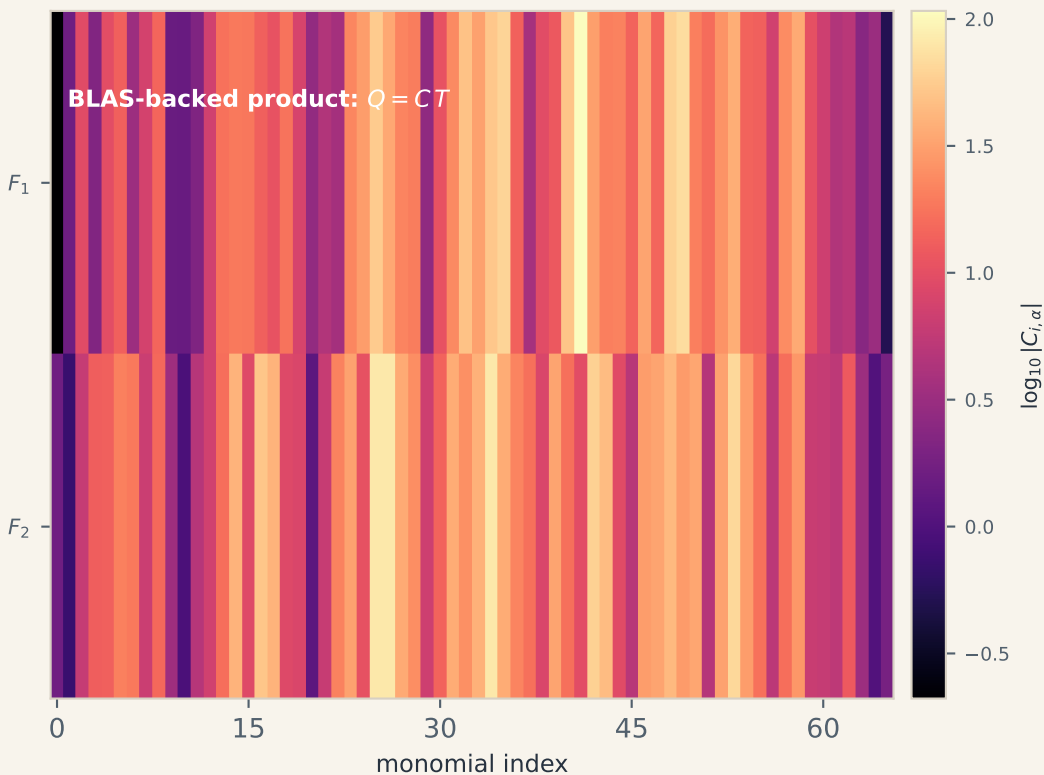

Extracted roots, ks(2,10)

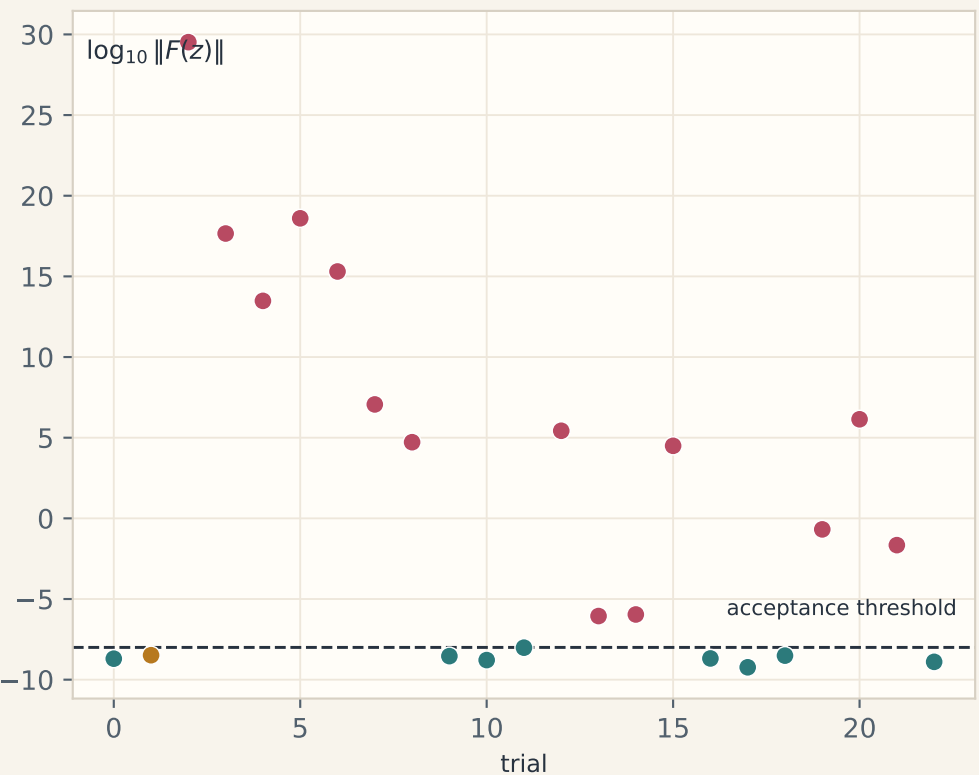

Kostlan support for ks(2,10)

Vectorized dense coefficient block

Trial residual trace

roots 8/8 trials 23 Q calls 478 Q time 0.007s best residual 9.63e-09 total 0.041s
